Phone: 724-658-4516 ■ Fax: 724-658-5100 ■ E-Mail: ncco@newcastleco.com

Features

- Reduces bending and reaching
- Palletizing and depalletizing with same machine
- Handles empty round containers

Bulk Palletizer/Depalletizer Model CL-3000

Description

The operator, utilizing a pallet jack, loads an empty pallet into the loading magazine. Then the pallet is tilted and lifted, positioning for manual loading. As the containers are palletized, the operator lowers the pallet into the magazine. When a full pallet is formed, the unit tilts back to a vertical position for pallet jack unloading.

Sequence of Operation

Tier Sheet Placed on Palletized Containers

Additional Cans Palletized

Palletized Product is Removed with a Pallet Jack
