Pallet Inverters Model FDL

Phone: 724-658-4516 ■ Fax: 724-658-5100 ■ E-Mail: [ncco@newcastleco.com](mailto:ncco@newcastleco.com)

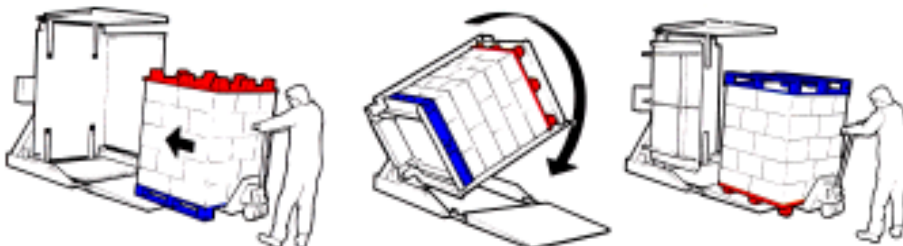

## Features

- Free standing  
180 degree load inverter
- Accommodates a wide range of load sizes
- Dual clamping plates that provide stabilization even for small loads
- Ramp loading standard, ground level loading optional

FDL Pallet Inverter Rotates Load 180°

## Sequence of Operation

## Description

The Newcastle Model FDL transfers loads from wood to plastic pallets, slip sheets or rental pallets and allows for easy removal of damaged product from the bottom of a load. It also helps save costly in-house pallets.

The tapered bucket style of the clamping plates on the FDL allows for simple entry and exit from the machine and permits loading via pallet jack or lift truck.
