## Pallet Washing System

Phone: 724-658-4516 ■ Fax: 724-658-5100 ■ E-Mail: [ncco@newcastleco.com](mailto:ncco@newcastleco.com)

### Features

- Stand alone unit
- Compact design
- User friendly operation
- Stainless steel construction
- Manual or automatic loading and unloading

### Description

A powered conveyor transports single pallets through a wash rinse and blowoff system.

### Operation

Single pallets are manually loaded on a power conveyor located in the washer. Circulated and filtered water is used in the washing section. A heater maintains optimum water temperature. Fresh water is then used to rinse the pallets in a separate zone. A blower zone removes excess water prior to discharge for manual unloading.
