## Features

- Dispenses tie, top, slip sheets automatically
- Vacuum sheet pick up
- Sheet stack size and capacity to suit application

RM-940 Sheet Dispenser

## Description

The RM-940 automatically dispenses sheets for palletizing or load transfer operations.

## Operation

Fork truck operator positions a stack of sheets for dispensing on floor in a designated location in front of machine. Vacuum pick up assembly lowers, secures, lifts, and transfers single sheet for palletizing or load transferring applications.
