Manual Pallet Stacker Model 40-57

Phone: 724-658-4516 ▪ Fax: 724-658-5100 ▪ E-Mail: ncco@newcastleco.com

Features

- Quick and easy way to stack pallets
- 8 pallet capacity
- Rotation of equipment requires minimal effort
- Cost effective
- Custom built to accommodate various pallet dimensions

40-57 Manual Pallet Stacker

Description

The 40-57 is utilized to manually stack and discharge pallets.

Operation

Single pallets are loaded manually into the holding area. Once the magazine is full, the 40-57 is manually rotated 90° to discharge the stack of pallets to a gravity conveyor. Stacks are then staged on conveyor or removed with a fork truck.
