

POWERED DANDY LIFTS

POWERED DANDY LIFTS

The Lifter Transporter That Started It All...

Now with Powered Lift

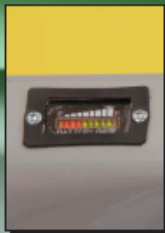

When we first introduced the Dandy Lift to America over 25 years ago, we started a revolution in the way industry transports, lifts, and positions loads. Since then, we've seen a lot of imitators, but none come close to the quality, performance, and durability of a Dandy. Powered Dandy Lift builds on that heritage of quality. It lifts and lowers at

the touch of a button providing the ultimate in ergonomics and convenience. They are clean, quiet, user-friendly, and ideal for applications in high-tech, industry, retail, and even office environments. Some uses include stock rooms, tool rooms, electronic assembly areas, shipping rooms, offices, test stations, maintenance departments, and many more.

And All the Other Little Things That Make it a Dandy

Ergonomic comfort shape handle

Battery status indicator and onboard charger

Full shielding of all electrical components

Smooth rolling casters and floor lock

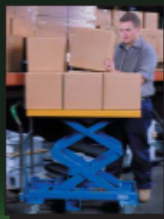

High-speed linear actuator for clean, precise positioning

A Dandy Lift for Every Application...

Dandy Lifts are the original liftertransporters. For more than 25 years, these manual pump units have been used in all types of industries to make work faster, safer, and easier. They're available in capacities from 330 lbs up to almost 1,800 lbs and in single scissor, double scissor, and low-profile designs. There's even a Dandy Leveler, which keeps loads at a comfortable working height as items are added or removed.

L-150-330 pound capacity L-250-550 pound capacity

- Ideal for light industrial handling
- Attractively finished in enamel paint and chrome
- Parking lock
- Steerable caster-type wheels
- Infinite height adjustment within range

A-350W-770 pound capacity

- Over 4 feet of lifting height
- Parking lock
- Rapid rise
- Steerable caster-type wheels
- Attractively finished in enamel paint and chrome
- Infinite height adjustment within range

A-800-1760 pound capacity

- Lifts to over 3 feet
- 20:1 mechanical advantage hydraulic system
- Parking lock
- Steerable caster-type wheels
- Attractively finished in enamel paint and chrome
- Infinite height adjustment within range

DLV-150-150 pound capacity DLV-500-500 pound capacity

- Automatically adjust loads to ideal height for feeding or off-loading
- Minimizes bending and reaching
- Simple structure is virtually maintenance free
- Supports diverse loading needs
- Castor lock for parking
- A simple turn of the adjusting knob adjusts for varying load heights

M-500L-1100 pound capacity F-500L-1100 pound capacity

- Two types for use with skids or containers, and plastic pallets
- Infinite height adjustment within range
- Parking lock
- Steerable caster-type wheels
- Attractively finished in enamel paint and chrome
