

Fixed Product End Stops

End Stops - Allows product to stop at the end of a conveyor line. Fixed and adjustable end stops are available.

Adjustable End Stop - Formed or structural steel adjustable end stop bolted to the conveyor frame with manually adjusted stop positions. Height is not adjustable.

Fixed End Stop - Structural channel bolted or welded to the end of the conveyor with optional structural angle reinforcement. Fixed end stops can include fork cut outs for loading and unloading.

Back Stop - Fixed or Adjustable back stop allows for easy product positioning when loading.
