

PRODUCTS & CAPABILITIES OVERVIEW

A HISTORY AND TRADITION OF SUCCESS

Borroughs was started as a contract manufacturer by Walter Borroughs of Kalamazoo, MI in 1938. After World War II Borroughs began making a broad variety of industrial products for the automotive industry. Borroughs' industrial shelving line was launched in 1954 and the shop equipment/workbench line was added in 1957. Borroughs purchased the Andrew Wilson Company in 1988. This acquisition added the Rivet-Span[®], Wilsonstak[®] and Record Master[®] (four post shelving) lines. On April 18, 2005, Borroughs was awarded ISO 9001:2008 registration, and in 2008 was awarded the ISO 14001:2004 registration for environmental operations management. Today Borroughs employs 225 people in their over 400,000 square foot facility.

Box Edge Plus®

If your manufacturing facility, distribution center or business could have only one system for all of its storage and inventory demands, that system would be Box Edge Plus. Configure Box Edge clip-type shelving components to meet your needs: maximize your cubic volume capacity and efficiently store small items. Create exactly the storage system you want, with all the functionality you demand and the quality you deserve, at a highly competitive price.

Rivet Span®

Rivet-Span is virtually a storage erector set, and offers the largest selection of beams in bulk storage anywhere. Use Rivet-Span to create storage for anything from counter units, tire racks and packing tables to garment storage, hanging rod units, molding or long parts. Rivet-Span's commercial quality storage system sets up with just a rubber mallet—no nuts, bolts or clips are required on standard units.

High Density Drawers

Borroughs High Density Drawers provide a powerful storage solution with a capacity up to 400 lbs. per drawer. Partition and divider combinations allow you to design a system with pre-configured or customized layouts to improve space efficiency as well as organizational productivity of heavy, hard to store or smaller items.

B-Span®

Borroughs B-Span provides a heavy-duty storage solution with an easily accessible, wide-span design. B-Span bridges the gap between clip-type shelving like Box Edge Plus and full-scale pallet racking, and can accommodate hand-loaded items as well as pick and lift loads.

High-Rise & Multi-Tier Systems

Borroughs adaptable Multi-Level Steel Storage Systems will maximize your facility's usable space by optimizing unused vertical space.

Record Holders

Contrary to popular belief, paper use isn't disappearing from today's business – it's growing. Borroughs can help you economically retain and protect your organization's growing records—and still retrieve needed information easily and quickly.

Aisle-Saver® High Density Storage

By installing an Aisle-Saver mobile storage system or mobilizing your existing shelving, Aisle-Saver can increase your storage capacity by 50%. Aisle-Saver is a complete, high-density storage solution, with a flexible design, that can be configured to meet the exact needs of any manufacturing or industrial operation or facility. By optimizing existing space with Aisle-Saver you may not need to expand your facility. Aisle-Saver high density storage can be configured using a number of Borroughs industrial products including heavy duty B-Span, Box Edge Plus, High Density Drawer Systems and Rivet-Span.

TSI Weapons Racks & Storage®

Whether you're dealing with local law enforcement or military special forces, we can equip your armory with the tools you need to get organized and be ready for action. With parts designed to hold pistols, tasers, rifles, heavy weapons, and more – these units can be configured to work best for you. In addition, our selection of components allows you to not only completely customize your system, but also store virtually anything. Heavy weapons, FLAC jackets, ammunition, rifles, shotguns, and more. They can also be used to make your system perfect for storing evidence for secure archival.

Shop Equipment

Borroughs has a long history of making the best shop equipment in the industry. Our shop equipment offerings include work benches, technician carts, wall mounted cabinets, tool boxes and specialty desks. Each of these products combines heavy duty construction with superior fit and finish.

A LEGACY OF QUALITY PRODUCTS AND OUTSTANDING CUSTOMER SERVICE

Borroughs Corporation is a world wide leader in designing and manufacturing storage systems. We help our customers achieve their goals in terms of efficiency, productivity, security and cost. We have a dedicated team in our Technical Support Department that will make sure every detail is covered. Borroughs also utilizes Configura rendering software to interface with architectural drawings, making planning simple. A 3-D facility rendering allows customers to see the planned system prior to manufacturing and install.

Museum Cabinets

At Borroughs, our dealers tailor our Museum Storage Products to exact measurements, ensuring that each project is a custom fit. The result is that Borroughs Museum Storage units are a real work of art—like the costumes, herbs, flowers, and priceless works of art they protect. Designed specifically for flexibility, cabinet drawers and trays can be added or subtracted with a few adjustments, allowing the collection to drive the storage environment.

Wilsonstak® Shelving

Borroughs Wilsonstak offers a nationwide group of library equipment specialists who are fully prepared to assist you in all phases of Library Bookstack planning. Our Borroughs Wilsonstak experts are pleased to offer assistance with floor plan layouts, engineering data, product information, and budget pricing.

Periodical and Media Storage

Periodicals and special display stands ride on hinged shelves with back issues stored conveniently under the display. Optional plexiglass covers are available to protect materials. Wilsonstak media storage accommodates all kinds of media:

- Single & Double Tier Sloped Media Shelves
- Media Hanger Racks
- Multi-Media Browsing Boxes
- Newspaper Racks
- Sloped Display Bases
- Storage Shelves
- Sliding Reference Shelves
- Free-Standing Book Supports
- Sliding Dividers on Integral Backstop Shelves
- Adjustable Dividers on Slotted Shelves
- Under shelf Wire Book Supports

Four-Post Shelving

Businesses need to store their file collections economically, which means space-efficient, time-efficient storage is a must. Borroughs Record Master has been specially designed with this in mind. Borroughs Record Master open shelf filing allows folders to be clearly visible and within close reach, providing efficient retrieval. Its easy-to-assemble units are aesthetically designed and maximize file storage per square foot.

Case-Style Shelving

Case-Style shelving, with full-height double wall construction, creates a bookcase-like appearance. A finished product with no exposed holes, slots or unfinished edges gives the unit smooth, clean lines. Case-Style shelving blends into any office environment with its wide range of available colors. The patented sliding divider adjusts easily to any shelf position while holding files securely in place. Shelves are free of any slots that are normally needed for dividers.

Borroughs Standard Powder Coat Colors

Borroughs powder coat finishes are high quality, durable and inert. Borroughs offers 7 standard colors. We also offer custom color matching, using Borroughs computerized technology. The colors depicted on this publication have been reproduced using a printing process and are only provided as a guide. The actual painted product may vary. All colors are not available on all products. Please contact your Borroughs Dealer for details.
